All Luvari beaded liners are available in the following beads:

EZ BEAD

ONE BEAD = TWO APPLICATIONS

EZ Bead is easy to use, no folding, unfolding or zipping off.

Utilize the EZ Bead like a J Bead, and hang it directly over the pool wall. (Fig 1) No bead receiver needed.

When your pool has a standard bead track, use the EZ Bead to slip right into the channel at the top of the pool wall. (Fig 2)

Our EZ Bead style of beading is two beads in one, it can be used as a J-Bead and hang over the pool wall, or as a Standard Bead and slide into the bead receiver on the top of the pool.

There is no need to modify the EZ-Bead when using either of these two methods, because it will never be necessary to fold or zip off like other brands may require.
